Women and Gestalt Gathering September 16–20, 2026

Hilltown Commons, Rensselaerville, New York:

A stunning, welcoming venue nestled in the northern Catskill Mountains of New York—perfect for replenishing, reflecting, and rebalancing.

We invite you to the third Women and Gestalt Gathering. Let's come together to support and inspire one another's authenticity, visibility and diversity.

In the midst of chaotic and bewildering times, our desire to gather is stronger than ever. We seek to honor our culture as women and the restorative and reciprocal nature of the feminine. We bring our Gestalt approach to the emergent process of co-creating our time together, deepening our connections, our courage, and our grit.

The Gathering supports our exploration of how we step into leadership and power as we find balance and stability to impact the world as women. In the strong winds of chaos, we gather to reignite our collective flame to guide and inspire us.

Daily Activities Include: embodied presence, relational mindfulness, emergent experiments, self-reflection, large and small group work, and celebrating the Autumn Equinox and related themes. Additional optional

activities include hiking, yoga, kayaking, and time connecting with nature
All who identify as women are welcome. We hope you'll consider joining us.
